# Agreement for Army Career Skills Program
# Individual Internship

**Service members are required to complete and upload this Agreement as an attachment to their PAR in IPPS-A prior to routing for Commander approval.**

## Part I: Soldier Overview (To be completed by Soldier)

1. **Soldier Information:** IPPS-A Empl ID: 0004135544

   a. Rank: CPT Name: MANNING, JESSICA, E

   b. Assigned Installation: Fort Jackson, SC

   c. Separation/Retirement Date: 21MAY27

   d. Start Date: 05JAN27

   e. End Date: 21MAR27

   Days Until Separation: 137

   Duration (days): 76

   *System Generated*

2. **Company Name:** Friendly Technologies, LLC

3. **Website:** friendlytechnologies.net

4. **Overview of Company:** Explain Company Background (headquarters location, years in business, accreditations (if any), number of employees, business/occupational industry)

Friendly Technologies, LLC is located in Durham NC. It is a consulting and software studio that helps organizations apply machine learning tools efficiently and modernize their data architecture. They build end-to-end data products, covering data ingestion, processing, modeling, evaluation, and production deployment. They also advise startups and small teams on data governance, ELT pipelines, and the practical use of both machine learning and classical analytics.

5. **Overview of Proposed Program:** Explain the Program Format (position/career training is provided for, expected knowledge, skills and abilities required upon acceptance, program length, how will skills learned be measured, expected salary, funding for training, any out-of-pocket expenses)

I will be a data science intern with Friendly Technologies, LLC. My background in Applied Statistics and Data Science and knowledge in coding languages such as Python and R meet their prerequisite requirements for acceptance. I will spend 90 days with the company expanding my knowledge in coding languages, data modeling, and production development to prepare me for a job in the corporate sector upon transitioning from the Army. My skills will be measured through creating a portfolio of data projects and learning the industry from the company founder, Marc Loeffke. This will be an unpaid internship. There is no funding required for this internship. I may incur some out-of-pocket expenses to complete coding courses on my own time so I am prepared to understand the scope of the material that I will be learning with the company.

6. **Training Specifics:** Include/attach training plan, if available. List training methods (virtual, in-person, remote). List expected topics to be trained on to include the specific knowledge, skills, and abilities (KSAs) you will be taught during the internship training. How will this training help you meet your expected qualifications for job placement?

My internship with Friendly Technologies, LLC under the mentorship of Marc Loeffke will provide hands-on training in technical skills that are highly applicable to careers in data analytics, computer science, and business management. Throughout the internship, I will develop proficiency in SQL, Python, and R for data management, analysis, and problem solving. I will also gain experience with Tableau and Power BI to create data visualizations, dashboards, and actionable business insights. I will apply these skills by completing three portfolio projects that demonstrate my ability to work with data from initial analysis through final presentation. These projects will provide tangible examples of my technical capabilities that I can present to prospective employers during my transition from military to civilian employment. The internship will be conducted remotely with monthly in-person meetings to review my work, assess my progress, provide feedback, and establish goals for the next phase of my training.

In addition to developing technical skills, I will also work directly with the founder to learn how he advises startups and small teams as they address business challenges, evaluate information, and make strategic decisions. This exposure will help me understand how technical analysis can be applied in a real-world business environment rather than solely in an academic setting. By combining technical training, independent project development, mentorship, and exposure to consulting and business operations, this internship will prepare me for future employment in data analytics, business intelligence, technology, and other data-driven corporate roles. The experience will also help me translate leadership, problem-solving and analytical skills I developed during my Army career into skills that are directly relevant to civilian employers.

I have contacted the prospective employer to obtain the information listed in blocks 2-4 above and verify I understand and believe I can successfully complete all necessary portions of the proposed training.

## Part II: Employer Agreement for Army CSP Individual Internship

**By signature of this Agreement, the Employer agrees:**

Eligibility criteria for training providers and Service Members are outlined in Army Regulation (AR) 600-81 and Department of Defense Instruction (DoDI) 1322.29

• To teach the CSP Intern job responsibilities, new skills and practices specific to the business/industry.

• CSP Intern will work under the close supervision of the staff at the organization for the duration of the program.

• Internship will consist of work experience at entry-level positions.

• CSP Interns will work no more than 40 hours in any given week.

• CSP Interns shall not receive compensation of any kind from the Employer.

• The internship is for the benefit of the CSP Intern and even though the internship includes actual operations of the Employer, training is similar to training which would be given in an educational environment.

• CSP Intern does not displace regular employees but works under close supervision of existing staff.

• The Employer that provides the training derives no immediate advantage from the activities of the Intern and on occasion its operations may actually be impeded.

• CSP Interns shall not be required to purchase any materials or be charged a fee as a requirement for the internship.

• CSP Intern shall not be involved in the selling of goods or services to any Soldier, or a Family member of a Soldier junior in rank, grade or position to the Soldier Intern, per Par. 2-205, Joint Ethics Regulation. For the purpose of this provision, goods and services include, but are not limited to vehicles, recreational vehicles, real estate, rental properties, time shares, investment products, life insurance, health insurance, vehicle insurance, property and casualty personal insurance, and business and commercial insurance.

• The Employer will take daily attendance of the CSP Intern and report attendance to the CSP Representative upon request.

• The Employer shall notify the CSP Representative immediately if the CSP Intern is injured at the worksite.

This Army CSP Individual Internship may be terminated for any reason, if it is determined to be in the best interest of the Intern, the Commander, or the Employer. The termination reason and effective date will be reported to the Transition Services Manager and other parties (Intern, Commander or Employer) by the terminating party immediately.

## Part II: Employer Hold Harmless Agreement for Firearms or Law Enforcement

**For CSP programs or individual internships that include the use of firearms or are for Law Enforcement, the provider must agree to following:**

The provider agrees to release, indemnify, and hold harmless the Government and U.S. Army Installation Management Command for damages to property or injuries to persons which may arise from, or incident to, firearms training or use as part of a Skill Bridge Program internship. This indemnification also applies to damages to the property of the sponsoring activity for damages to the property or injuries to officers, agents, or employees or others who may be on the premises at their invitation or the invitation of any one of them. The provider further agrees to hold the Government harmless from and indemnify same for any final judgment of a court of competent jurisdiction to the extent attributable to the negligence of the interning Soldier, the provider, its officers, employees, and agents when acting within the course and scope of their employment. This Release, Indemnification, Hold Harmless Agreement, and Agreement Not to Sue shall be interpreted according to Federal law. It is to be construed as broadly and inclusively as is permitted by relevant Federal law.
